# COMMENT ON CURRENT EVENTS.

THE NEW MINISTER TO TURKEY.

From the Boston Journal.

Over S. Straus, who represented us at Constantinopie under Mr. Cleveland's first Administration, and is now to return there as the successor to Minister Angell, is well furnished for his work, and made an excellent record in his former torm of service. His appointment will furnish a good opportunity to take up again those long-deferred claims for the destruction of mission property at Harpoot and elsewhere.

#### HENRY NORMAN'S OBSERVATION From The St. Louis Republic

From The St. Louis Republic.
"It is obvious," says Mr. Norman, "that the only
statesmannike course of the President is to finish
the war first and lot the policy take care of itself."
Every real patriot in this country heartily indorses this declaration. Every broad-minded and
unselfish citizen, who puts country above private
interest, hopes that Mr. Norman has as correctly
described the artifude of the President as he has
described what that attitude ought to be. ADVANTAGES OF THE NEW FRENCH

#### TREATY. From The Philadelphia Press.

The French reciprocity treaty adds one more market to the work of the Dingley tariff. For fifteen years France has been excluding our food products. Diplomary proved useless to secure their carance. High duries on French goods have forced a reduction on our own, and a large addition to the profits of the farmer are secured at the cost of somewhat lighter duties on luxuries, none of which interfere with American manufactures.

#### A GREAT VICTORY FOR PEACE. From The New-Orleans Times-Democrat.

From The New-Orleans Times-Democrat.

Peace hath her victories no less than war, and the venerance King of Belgium is fully entitled to loast of one of the most important of such victories ever recisived. On March 16 the first lecomotive arrived at Dole, on Stanley Pool, two hundred and forty miles above Matadi, where the first rail was laid eight years before. This wonderful schlevement brings 20,000,000 or 40,0000 people of the Congo Free State within steam communication with all the civilized world.

#### SPANIARDS LACK EFFICIENCY, NOT COUR-AGE.

From The Minneapolis Tribune. It is evident from the battle of Manila that it is not a lack of courage that latally handleaps the Spanish in this war, but lack of skill and efficiency is drill and marksmanship. We believe that whenever the American and Spanish flests meet in deadly contains the victory for our ships will be quite a declaive as it was off Cavité. Nathing can withstand the impetuosity of the American attack and the accuracy of the American fire.

RECORD-EREAKING YEAR FOR EXPORTS.

From The Boston Globe.

The exports of domestic manufactures from the United States will be greater in the flaces year 1868 than during any year in our history, by which is meant of course, greater in comparison with the increase in corresponding periods in other years. This means that we are steadily absorbing the business of foreign rivals and coming nearer and flarer to first position among the producing and distributing Powers of the earth.

GIVING SPAIN A LESSON IN CHIVALRY.

From The Providence Journal.

The Spaniards of Manila are reported to have threatened to shoot the commander of one of the few ships which surrendered to the Americans. Rear-Admiral Dowey, it is said, has announced that he will administer justice in summary fashion if they dare to make way with him. Such an act is indeed quite as noble as that which secured the destruction of the Spanish power in the Philippines. The chivalric element does not aften cropout in wars nowadays, but evidently it is not altogether dend.

#### SPAIN'S DESPERATE FINANCIERING. From The Louisville Courier-Journal.

The desperation which characterizes the country's financiering is illustrated in the proposition to pay in francs the coupons of the foreign debt on and after October 1 only to such bondholders as can prove that they are foreigners and have been domiciled abroad for six months previous to the promulgation of this law, all other bondholders to be paid in Spanish currency. This is repudiation already, although it is thinly disguised.

#### CHANGES IN A HOSPITAL STAFF.

Dr. Clinton H Catherwood has succeeded Dr. Edwin Holmes as house surgeon of the Hudson Street Hospital, and Dr. J. W. MacNider, formerly of Roosevelt Hospital, has been appointed fourth assistant surgeon. The practice of selection and promotion in this staff differs somewhat from that employed in the larger hospitals. The men are as a rule of larger experience and are ap-pointed for a period of twenty months, divided into five terms, at the end of each of which there every four months a house surgeon leaves the hospital, and the vacancy in the office of fourth assistant surgeon, caused by the general promo-tion of all below the house surgeon, is filled by a by Superintendent Knon, S. TAKEN AND SHOT. Leavenworth, Kan., June 1.-Fifteen convicts overpowered the guards and escaped from the United States penlient'ary here to-day. James Musgrove, leader of the mutiny, was surrounded in the woods near by, and was shot to death

Eighty convicts were being sent to the stockades of the prison, where they have been working for several days. Eight guards, heavily armed, marched with them. When the stockades were reached, six of the guards mounted the towers. The convicts waited until they were at a safe disance, and quickly overpowering the two remaining guards, they made a rush for the gates. Muss-grove headed the column, holding on each side of him a captive guard to prevent being shot. When the gates were reached most of the convicts re-pented of their hasty action, and turned back. Fifteen made a dash for liberty, however, and succeeded in reaching the woodland near by. Pur-suit was given, and after an hour's chase Musgrove was surrounded. He carried a rifle taken from a guard, and was just about to fire into the posse when a shot from the rear brought him to the ground. Musgrove's companions stattered in every

Tammany election district captains in the XXIIId Assembly District held a caucus last evening and talked over the coming fight at the primaries in the district on June 7. William E. Stillings is the Tammany leader in the district, but Thomas F. McAvoy, the former Inspector of Police, is making a fight to get the leadership. Followers of Mr. Stillings include many of the most respectable Tammany men in the district, but the opposition to his leadership is based on the fact that he has not been able to secure many appointments under the present administration. Tammany men in the district who are looking for offices have become dissatisfied. McAvoy's friends in the organization have been declaring that he could secure more appointments to office. The fight has become so warm that several of the election district captains have decided to recommend the selection of John Delmour as the leader in the district, because he has been on good terms with both the Stillings and the McAvoy factions.

The only other contests looked for at the Tammany primaries are in the Vilith Assembly District, where a determined effort will be made to wrest the leadership from Martin Engel, and in the Annexed District, where Councilman Hyland is trying to get the leadership away from T. J. Mulligan. eadership is based on the fact that he has not

this home here to-day. Bright's disease was the chief of death. Mr. Keating was elected Controller in 1879, and was twice re-elected. He was chall man of the State Convention in 1875, when the dorman element assumed control of the party and heminated John Lee Carroll for Governor. The last office held by Mr. Keating was State Tax Commissioner, from which he retired four months ago. The areat political disappointment of Mr. Keatings life occurred in 1884, when he was slated as the candidate for the United States Senate, to succeed the late James B. Groome. It was arranged to elect Mr. Keating, but the late George Colton, who was then a power at Annapolis, aided in bringing about his defeat in revenge for Mr. Keating's refusal to aid in making Mr. Colton president of the Chesapeake and Ohio on the elevation of Mr. Gorman to the Senate.
